ORIGINAL

Dear Commissioner Stump,

I'm sending you this email to ask that you please not deregulate Arizona's electricity system.

I had been a primo employee for 25 years as a nurse, but changes in medicine have squeezed out my niche job, giving it to much lower paid and uneducated persons. I am unemployed for 2 years, and am being penalized for being older (57) and out of mainstream nursing for 25 years. And no one wants to retrain me because that costs them money which could be more wisely spent on a young person.

My financial situation is getting worse day by day.

I CANNOT AFFORD ANY INCREASE IN MY ELECTRIC BILL !!!

I'm an older person and NOT EVEN on a fixed income, I'M ON NO INCOME, due to no fault of mine. No family left to help support me either.

Many other older Arizonans are on fixed incomes. They too already face ever-increasing costs of living.

With our state's hot summers, power for cooling is not optional. Keeping the cost of electricity affordable should not be put at risk with "deregulation".

Why risk the safety and pocketbooks of Arizona's families and retirees?

Please oppose this experiment of "electric deregulation". Thank you.

Sincerely,

Ms. marilyn robb
